Employ ID
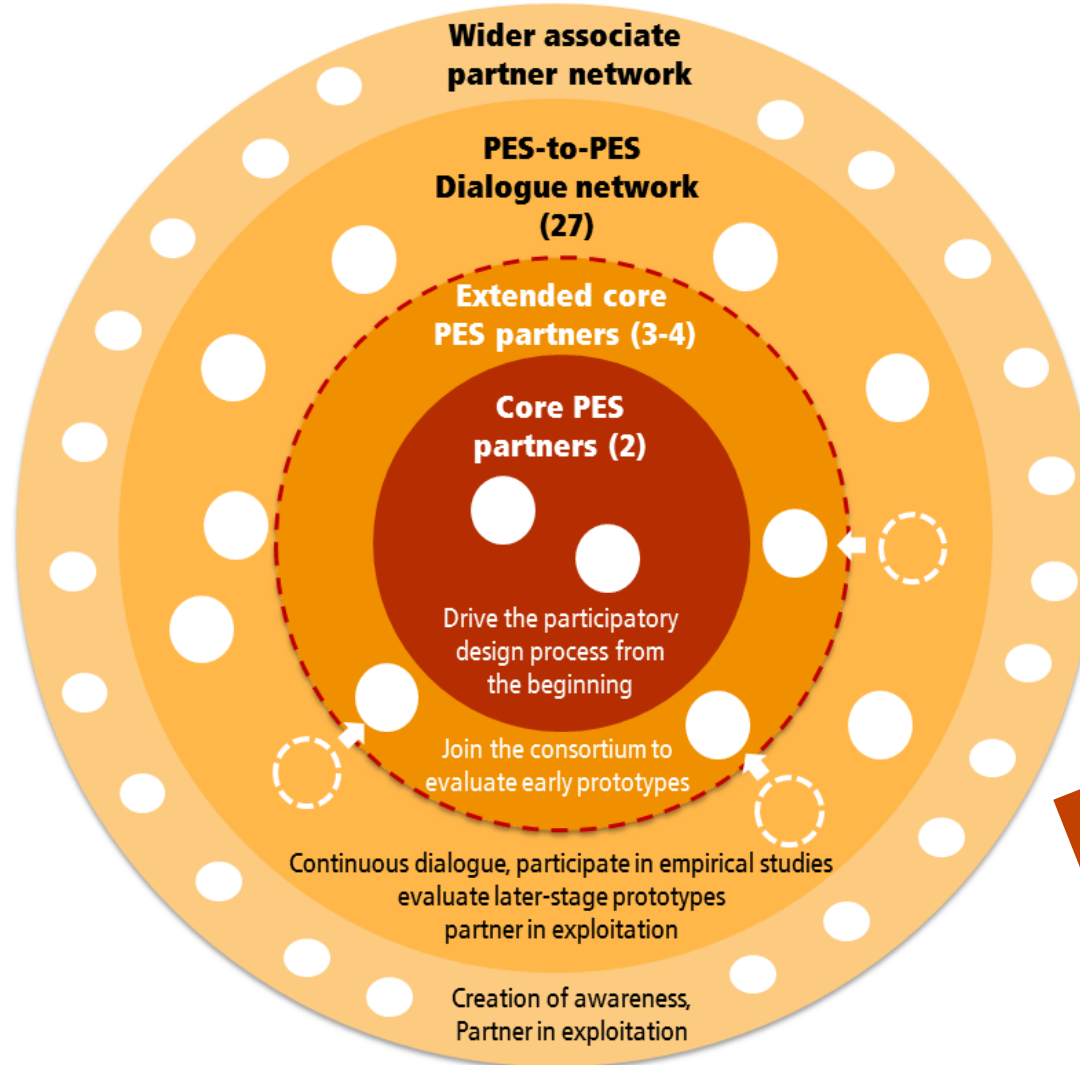

Scalable & cost-effective facilitation of professional identity transformation in public employment services

Associated Partner Network - APN

Wider associate
partner network

PES-to-PES
Dialogue network
(27)

Extended core
PES partners (3-4)

Core PES
partners (2)

Drive the participatory
design process from
the beginning

Join the consortium to
evaluate early prototypes

Continuous dialogue, participate in empirical studies
evaluate later-stage prototypes
partner in exploitation

Creation of awareness,
Partner in exploitation

Open for any
type of
organisation!

- **formal mechanism** for structuring relations with the wider community (public administration, research, industry)
- a **forum for exchanges** between EmployID and various sectors relevant for an early feedback, use and further uptake of the results of EmployID
- conducts **two-way communication** with other research structures and training initiatives
- Communication mainly via **events** and **regular electronic consultation**
- Potential for specific **collaboration** on project-related activities

- **Application Partners from public administrations**
  - interested in using EmployID tools in their own environment
  - opportunity to try out innovative solutions to inspire their own further developments, influence the usefulness of the tools, and support own learning and transformation processes.
- **Technology Partners**
  - interest in integrating EmployID technical solutions into their products
  - get new ideas for their further product development
  - support the technical team to adapt solutions to a diversified set of technical requirements
  - Focus on IT partners in the area of learning and collaboration technologies of PES organisations as exploitation partners.

- **Consultation Partners**
  - interested in the conceptual topics and their discourse as well as empirical findings and experiences.
  - give feedback to the project, e.g. in workshops, interviews or other forms of consultation, become part of an ongoing dialogue that is mutually inspiring.
- **Research collaboration partners**
  - interested in collaborating on specific research topics and in complementing their own research activities with EmployID.
  - Benefit comes from joint research activities and mutual experience exchange.

Additional Benefits

- Participation in selected project activities

- Meetings at major events in Europe related to EmployID topics (possibility to reimburse travel costs)

- Mutal knowledge exchange

- Potential for further collaboration initiatives

- Name and logo on EmployID website
