2141 - Inženirji in tehnologi/inženirke in tehnolinje v industriji in proizvodnji

Inženirji in tehnologi/inženirke in tehnolinje v industriji in proizvodnji opravljajo raziskave in načrtujejo, organizirajo ter nadzirajo gradnjo, obratovanje in vzdrževanje predelovalnih obratov in naprav. Vposredujejo programe za usklajevanje proizvodnih dejavnosti ter ocenjujejo stroškovno učinkovitost in vernost.

Level: 4

Responsibilities [Show](#)

WHAT WE OFFER

- Researching and negotiating data sources
- Designing and developing LMI systems, infrastructure, tools, portals and dashboards
- Consultancy and advice on the provision of LMI for different client groups
- Designing and delivering online and face to face courses about using LMI in practice
- Open educational resources on LMI

NOT JUST DATA

Facilitate practitioners in making sense of LMI to improve their own practice
